CrystalLane

CrystalLane

An exclusive to John Bead, Crystal Lane features sparkling crystals in a broad spectrum of colors. The collection includes our Twisted Crystal strands, a curated combination of pearls and crystals. We have glass bead double strands (7 inches) for twice the beads in some stunning clear and opaque colors! Our strands have also inspired a brand new collection of glass pendants in colors to match. Lastly, our new crystal flat backs will add shimmer and color to clothing, footwear, home décor and paper crafts.

Flat Backs

Our much-anticipated crystal flat backs are going to delight embellishment enthusiasts everywhere. We have gathered the most popular sizes and colors that will appeal to costume designers, skating costume creators, paper and collage artists, home décor crafters and everyone who wants to add a little bling easily to anything. Our glue-on flat backs, also known as rhinestone crystals, will add shimmer to any surface.

25 colors

The most popular 7 colors available in five sizes. Sold in Mini Packs and Master Packs. Packaging can be hung on pegs.

Pendants

Our CrystalLane pendants were selected to match the variety in our new rondelle strands and Twisted Crystal strand collections. They will add the finishing touch to beaded projects. Consumers will enjoy seeing their options while they are purchasing their beads. The pendants are faceted adding to their brilliant shine. Pendants are sewn to a sturdy standalone backer card. There are 20 Pendant colors.

There are two shapes; Teardrop and Oval

CrystalLane

Rondelle Strands

Our CrystalLane rondelle strands are a sparkling kaleidoscope of color. What began as a search for some new and unique opaque colors resulted in a brand-new crystal brand for John Bead. CrystalLane is going to fill the need for a crystal collection that is both affordable and an exceptional quality at our value pricing. There are 58 Rondelle Bead Strand Colors. **Two seven-inch strands per card.** Five sizes and high piece counts.

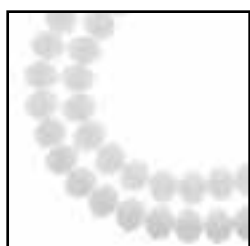

Opaque Gunmetal Luster

27290105-55	8x10mm

Twisted Bead Strands

The “twisted crystal” name was a natural choice once we discovered how beautiful our beads would look if they were twisted before attaching them to a header card.

We wanted to create a collection of beads that would make is easy for a new jeweler to create a piece of jewelry with unique color combinations. Experienced jewelers will enjoy the challenge of creating with colors pre-selected as well. Makers will see the unbelievable value in these five strand twists and mix and match from the whole assortment.

Each strand was named for a flower. They are fun to incorporate into our editorials with the finished pieces. Mother Nature has some truly outstanding color palettes. Our collection is a rainbow of options including two additional strands not shown on the current planogram.

With 5 strands on each card we have taken away some of the stress around wondering what will work well together. Crystals and glass pearls together can create some stunning combinations for jewelry sets. There are enough beads to make a necklace, bracelet and earrings if you so desire. We chose the most popular bead sizes for the twisted strands.
