GLASS GARDEN STRANDS

ASSORTED SIZES

CrystalLane™
DIY

Our 2024 special planogram featuring 96 unique glass bead strands. They are a John Bead exclusive program and will begin shipping in the spring. The strands have been designed to be seasonless. This is not a spring only planogram. The colors in the collection encompass a natural garden throughout the year. The beads can work in jewelry and surface embellishment applications. Combinations of beads can create floral and other shapes and patterns.
